

CDC CREATIVE DIE CASTERS

Manufactures of Aluminum & Zinc High Pressure Die Castings and Precision CNC & VMC Machined Components.

www.creativediecasters.com

INTRODUCTION

An Indian based, partnership owned & diversified manufacturing group specializing in manufacturing of Aluminium & Zinc Pressure die casting products for Automobile & General Engineering Industries.

With an investment of 30 Lakhs in its PDC plant, the Company was established in the year 2003 and has completed 14 years of service.

We have extended another separate machining unit with CNC machines, Hydraulic press machine and SPM machines etc., an investment of 1.5 crores in August 2008.

We added our capacity with 400 Ton Fully Automatic PDC machine, VMC & CNC machines With an investment of 3.0 crores in September 2015.

Our industry supplied supportive critical parts to OEM's including M/s. Same Deutz-Fahr India (P) Ltd., M/s. Samsung India Electronics (P) Ltd., etc.,

Applies business across a spectrum of Industries such as M/s. Taeyang Metal India (P) Ltd., M/s. Sona Koyo Steering Systems Ltd., M/s. Kwang Sung Brake India (P) Ltd., etc., They are all supplier of Hyundai Motors.

Exports 25% of orders to Habonim Valves & Actuators (Israel) and Automation Tool Company (U.S).

OUR MISSION

“To achieve complete customer satisfaction through zero defect culture, continuous improvement & implementation of quality management system by way of appropriate training & technological upgradation”

OUR QUALITY POLICY

CREATIVE DIE CASTERS is committed in manufacturing and to the supply of all engineering precision aluminum, Zinc pressure die castings and Machined Components at competitive prices, best in quality and right time. This shall be achieved by training all the employees towards continuous improvement activities across the organization in-line with ISO 9001:2015 quality system.

OUR TEAM

A team of professionals with competence, talent and industrious nature form our workforce. We have chosen a panel of professionals on the basis of their qualification, expertise and experience in their respective fields. All our team members retain close contact with our clients in order to understand their every specifications and instructions. Apart from this, in our organization, various training sessions and seminars are conducted to enhance their skills and knowledge towards new technologies and market advancements. Apart from this, we attain maximum clients satisfaction by offering high quality products that are in compliance with the set industrial standards.

WHY US?

We are quality oriented firm and we give our best in order to meet the specific requirements of clients. Owing to the expertise of our professionals, we have been able to give strong competition to our competitors. Our ability to design and develop products in customized form keeps us miles ahead of our counterparts.

- Sound financial position.
- Goodwill in the market.
- Rich industrial experience.
- Vast range of quality tested products.
- Ethical business practices.
- Tool Design and Development.
